

Introducing enMotion® with Lotion Roll Towels

Drying hands never felt so good

It's
enhanced
with a patented
lotion
formula

Now lotion is on a roll!

We have great news for improving your hand washing experience. Research shows that enMotion® with Lotion towels are **designed with softness in mind to help protect hands from the signs of dryness, cracking and scaling that accompany frequent hand washing***—a benefit to healthcare professionals who are required to wash their hands continuously throughout the day.

Wet hands release lotion

When drying wet hands, the moisture triggers the release of lotion from the towel.

Improves Hygiene

“Touchless” dispensing improves hygiene by minimizing the spread of infection and creating a more hygienic environment for patients and staff.

They fit right in

enMotion® with Lotion towels work perfectly with enMotion® automated touchless wall-mount dispensers and the enMotion® Impulse™ 10 dispensers.

Exclusively from Georgia-Pacific

enMotion® with Lotion is the only roll towel available in the away-from-home market that releases lotion when used with wet hands.

enMotion® with Lotion Roll Towels
